

Gather *Share* Know participant hub

Quick Reference Card for participants

What is the Gather *Share* Know participant hub?

The Gather *Share* Know participant hub is a personalized website where you can receive information about your participation in the **Molecular Analysis Profiling (MAP) Cancer Study**.

What are the key components of the participant hub?

- **Home:** Provides a quick view of your clinical research participation status, list of tasks, and other resources.
- **My Study:** Displays information about the study in which you are taking part, such as:
 - your study center's details
 - tasks that have been assigned to you or created by you or your delegate, such as visit reminders or reminders to complete your profile or a survey (if applicable)
 - study documents related to the MAP Cancer Study and clinical trials, and other resources including articles and videos related to the study or the condition being studied
 - visit guides
 - some of your test results.
- **Help:** Provides guidance for using the participant hub.
- **Profile:** Allows you to manage your Account Settings including password, contact information, personal preferences, and delegate information. You can access this by clicking the drop-down menu next to the  icon on the navigation bar.

How do I access the participant hub?

First-time login:

- You will receive an email inviting you to enroll in the Gather *Share* Know participant hub. Please check your “spam” folder if you have not received an email.
- After clicking the “Enroll now” link, you will be prompted to set up a user name and password. Confirm your contact information and agree to the Terms and Conditions.

Returning users:

- You can log in directly to the Gather *Share* Know participant hub site: <https://hub.clinicalresearch.com>.
- Enter the user name and password you created when you set up your account.
- If you have lost or forgotten your password, click the “Forgot your password?” link on the login page to request a Reset Password link.

Questions?

Please contact the study doctor or click on the “Help” button in the participant hub.

If you have a medical emergency, please contact your local emergency medical services.
